For these lessons, families can choose a variety of instruments to pursue! Our piano lessons teach basic techniques and note reading through engaging, hands-on activities. These lessons foster creativity and fine-motor skills, making piano learning a joyful experience. In our guitar lessons, children will explore the fundamentals of playing the guitar through hands-on, play-based activities. Ukulele lessons offer a fun and accessible introduction to string instruments. Percussion lessons are all about rhythm and beat. Children will explore a variety of percussion instruments, from drums to shakers, in a playful and exploratory environment. In our drum lessons, children will experience the excitement of playing the drums in a supportive, child-centered setting. Finally, the Multi-Sensory Sound Experience is a unique program that integrates

Music instruction with Rob Stephens is based on the principle that inspiration and intellectual curiosity leads to creativity. Weekly individual instruction is available in piano and voice. Private coaching is also available for audition preparation. Through guided learning, students are encouraged to use music as a vehicle for both expression and self-discipline. Students are exposed to a broad spectrum of traditional and non-traditional musical styles from European classical music to world music (and many things in between), culminating in a recital at the end of the school year.
